

And we make staff unproductive,
particularly away from their desks

Enterprise mobility benefits all
staff, in or out of offices

What does enterprise really mean?

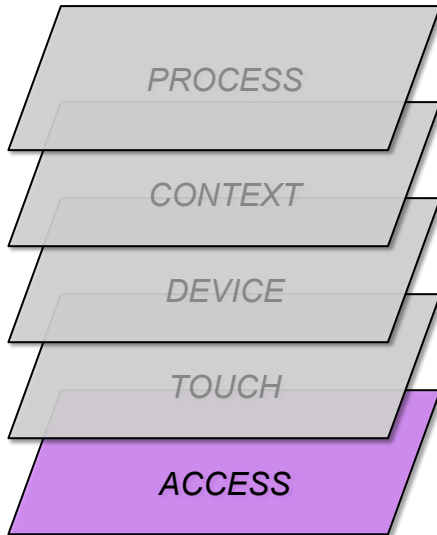

Step Two DESIGNS

PROCESS	Rethinking processes and tasks Apps that are natively mobile, as-you-go processes
CONTEXT	Designing for the context of use Field environments, user behaviour
DEVICE	Making use of device capabilities GPS, camera, accelerometer
TOUCH	Designing for small screens and touch Responsive design, new interaction models
ACCESS	Ensuring staff have access, wherever & whenever Modern devices, BYOD policies, wireless-enabled offices

We weren't able to design great corporate systems

Enterprise mobility gives us a second chance to deliver great design

There is a whole orchard of low-hanging fruit – start picking!

Let the revolution begin!
