

Damien Battisson, DEEWR

## CREATING A GOVERNANCE FRAMEWORK — STOP TALKING ABOUT IT AND WRITE ONE

This session will explore the meaning of governance and provide a roadmap for organisations to establish a collaborative governance model.

- What is intranet governance and why is it important?
- What to include in a governance framework
- Establishing a collaborative governance model

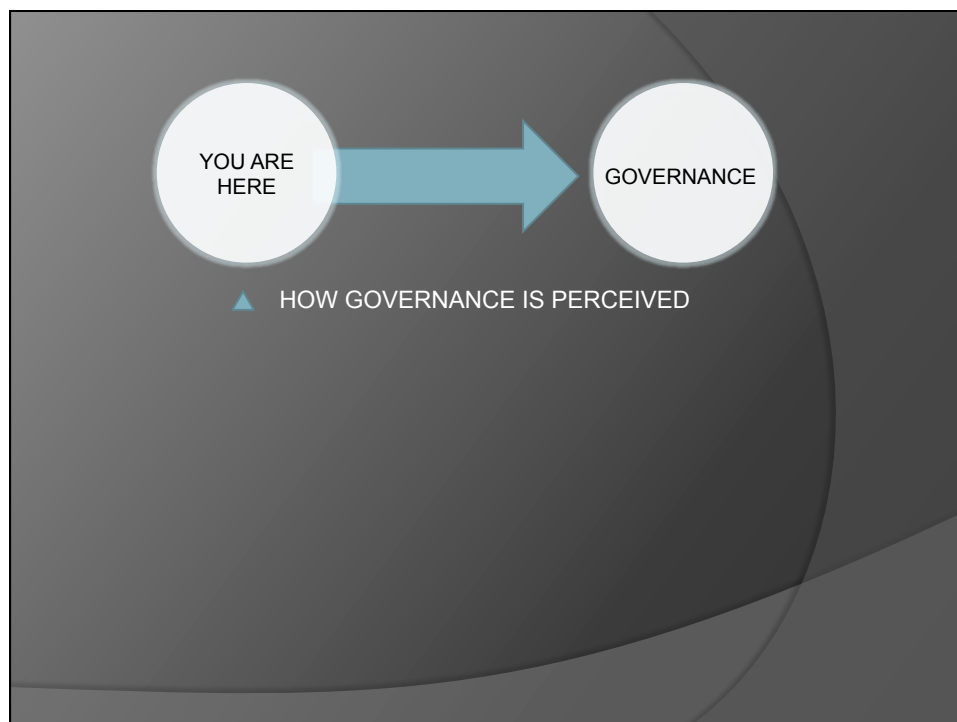

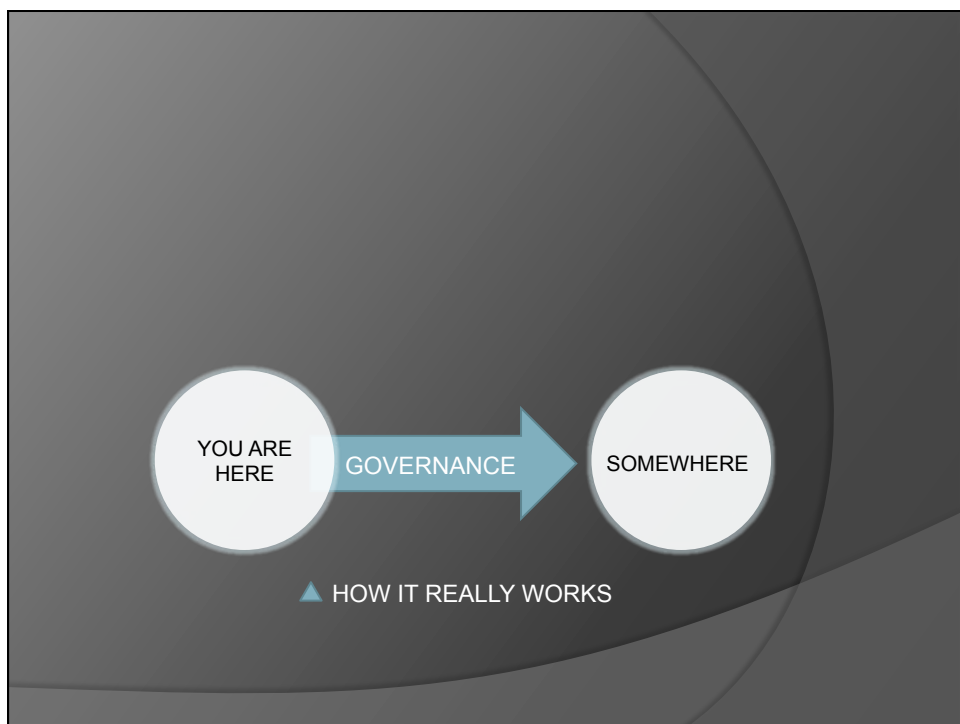

## Why is Governance important?

**Q:** Why is it difficult to get people in the organisation to care about the intranet?

**A:** If you don't know where you are or where you're going, you won't know how to get there or how to bring people with you.

## Organisation Goals = Intranet Goals

**Transparency** – know what the organisation and the respective teams within it actually do

**Expertise** – find someone in the organisation who can help with my problem

**Alignment** – ensure the organisation is working to achieve business objectives

**Risk and Compliance** – identify risks and implement controls to mitigate them

**Standardisation** – ensure the different parts of the organisation are operating in the same way

**Automation** – ensure the IT department is automating the right thing, re-using systems, keeping costs down

**Process Performance** – understand how the organisation, teams and individuals are performing

## Roadmap

1. Collaborative Governance
2. Strategic Decisions
3. Governance Framework
4. Enforce Rules

## Collaborative Governance

- Representatives across relevant disciplines
  - Comms, HR, IT, IM,... Business?
- Roles and responsibilities
- Make the rules
- Authority
  - Endorse
  - Enforce

## Strategic Decisions

- Decide your destination
- Align with organisation strategy and direction
- Where are we now?
- Where are we heading?
- What will be delivered in the meantime?
  - Information architecture
  - Content management
  - Centralised or de-centralised authoring
  - Permissions – who can do what
  - Social media (video, blogs, wikis?)
  - Team sites
  - Marketing and promotion
  - Standards and guidelines
  - Training and support
  - Staff, skills and resources

# Governance Framework

... sets out clear lines of **accountability** for intranet operations and includes **roles** and **responsibilities** for the **key players**.

# Governance Framework

## Policies & Guidelines

- Information Management
- Record Keeping
- Document Management
- Data Classification
- IT Security
- Retention and Disposal
- Code of Conduct
- Privacy
- Copyright

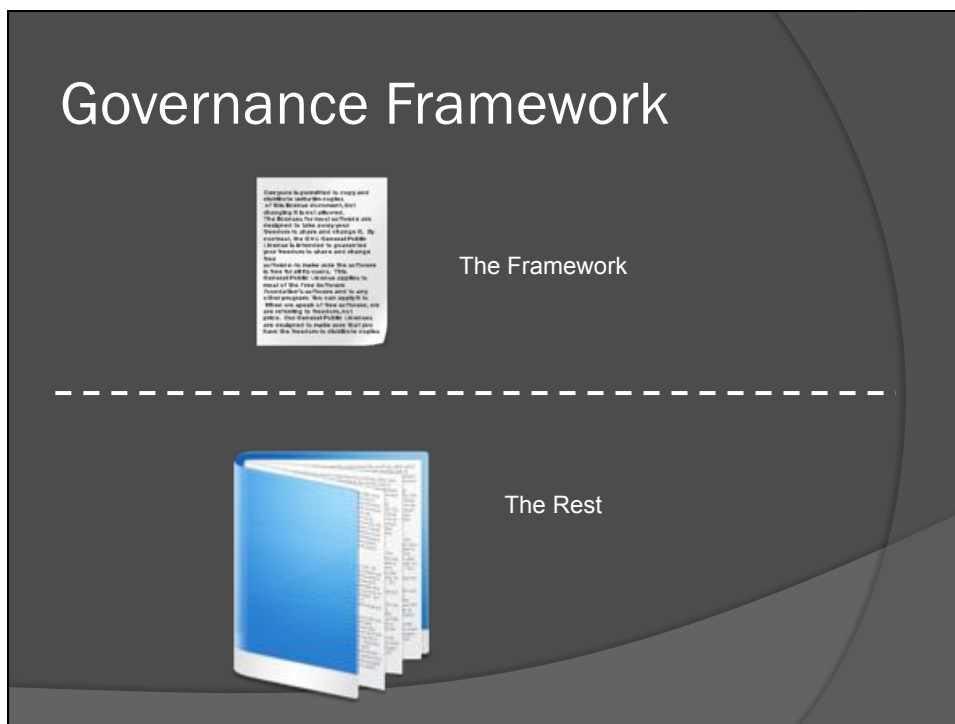

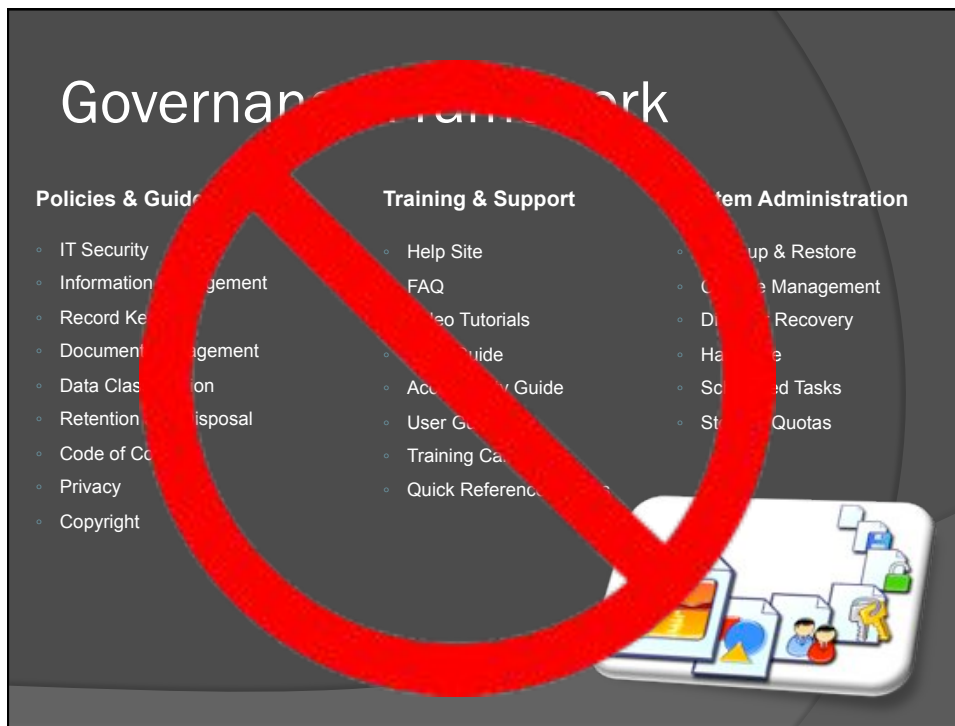

## Training & Support

- Style Guide
- User Guides
- Quick Reference Guides
- Help Site
- FAQ
- Video Tutorials
- Accessibility Guide
- Training Calendar

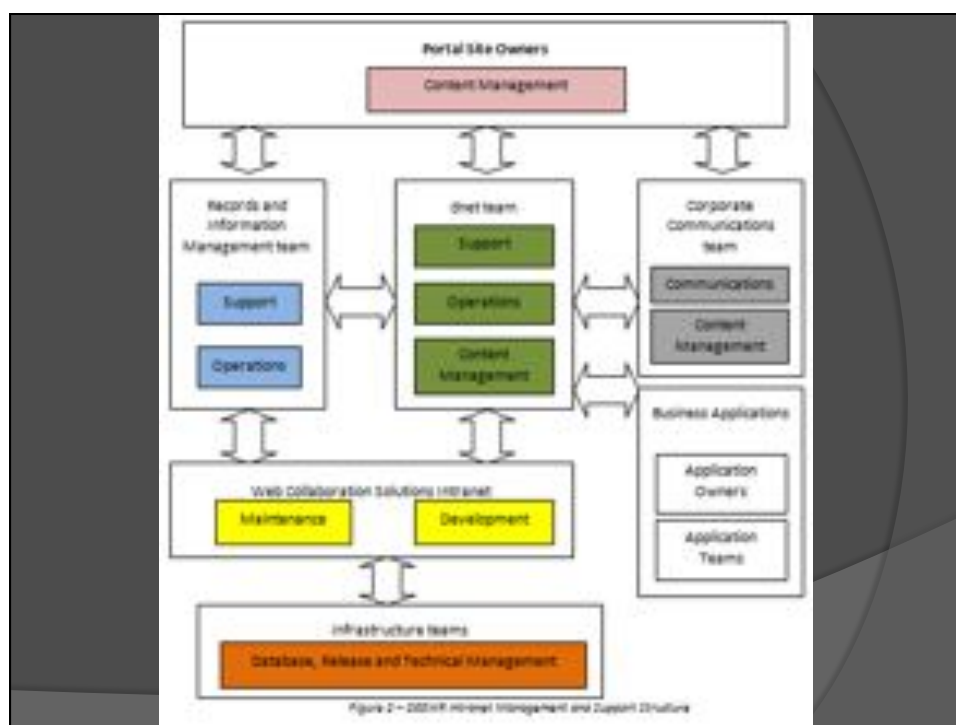

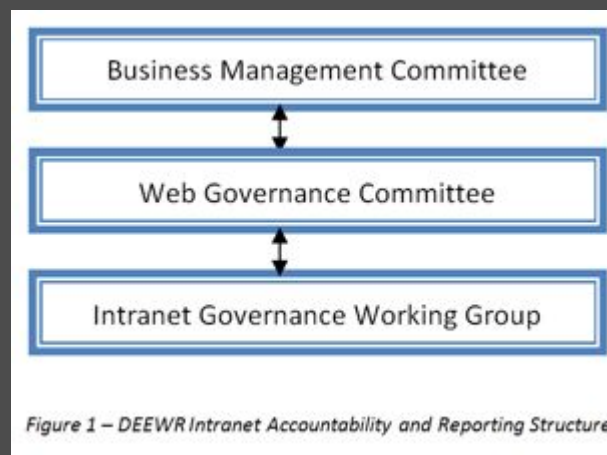

## System Admin

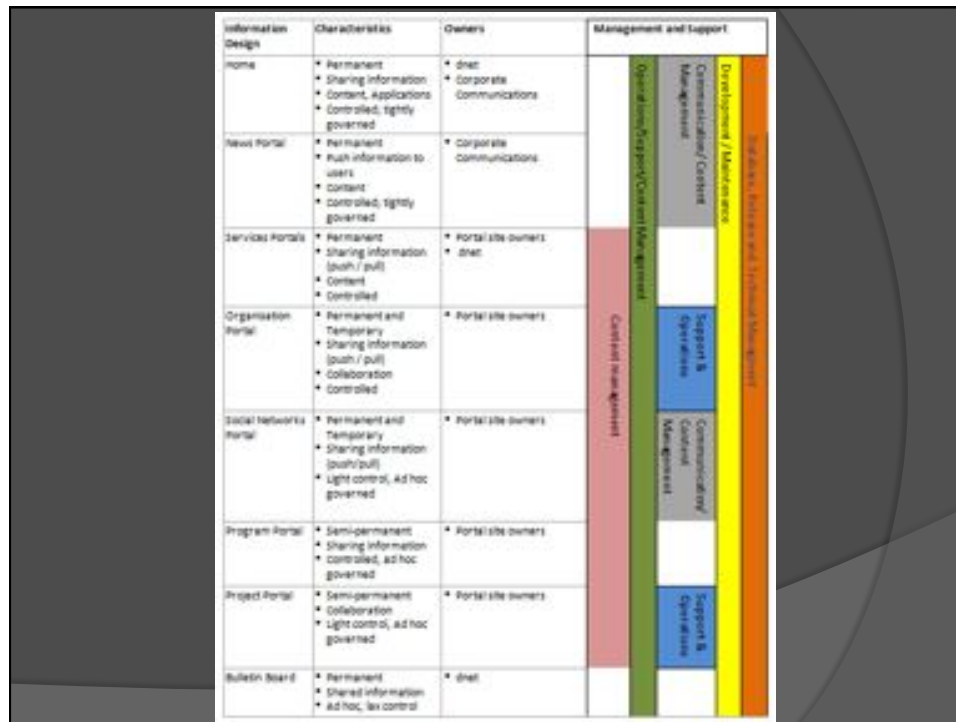

- Back up & Restore
- Change Management
- Disaster Recovery
- Hardware
- Scheduled Tasks
- Storage Quotas

# Governance Framework

Role	Responsibility							
	R = Responsible ; A = Accountable, C = Consulted, I = informed							
	Reporting		Intranet Management and Support				Technical Support	Infrastructure Architecture
	WUC	ICWG	Info	IRM	Corporate Communications	Portal Site Owners	WCS	Infrastructure / Architecture (Info)
Maintain Governance documents	I	A/I	R/A	R	C		R	
Monitor Governance Framework	I	A/I	R/A	R	C	I	C	
Maintain dnet policies and procedures	I	A/I	R/A	C	C	I/R	C	
Maintain idocs policies and procedures	I	A	C	R/A	C	I	C	
Information management strategies and promotion	I	I	C	A	I	I	C	
Dnet Web Accessibility strategies and promotion	I	I	A	C	I	R	R	
Compliance with Government policy, legal requirements, best practices	I	A	R	R	I	R	R	R

## Enforce the Rules

- You can't be the police if you don't have the law!
- People want to know the boundaries
- How to deal with non-compliance?
- Be consistent – no favourites.

## Cheers!

Damien Battisson  
**Director – Intranet & Social Media**

Public Affairs Branch  
Communication & Parliamentary Group  
Australian Government Department of  
Education, Employment and Workplace Relations
