Senior Associate, Litigation

*"technology has got to be easy, as soon as it becomes hard you're not going to use it."*

*"in terms of trying to find out if an organisation is a client, have there been any recent matters for that client, who's done them, you can find that out. "*

*"I don't know what I would do if I came in my second day and needed to book a meeting room. I'd probably just go and ask one of the girls and say how do I do it rather than working out the intranet."*

*"I don't know what goes on in Brisbane or Melbourne at all, but we should be seeing ourselves as a national firm"*

*" I didn't even know we had a knowledge search on the intranet"*

## Primary use of CU Intranet

- To find hyperlinks to reference sites and knowledge documents for my practice group
- Book leave, travel, process expenses and other admin tasks.
- Occasionally to look at firm news.

## Goals/Objectives

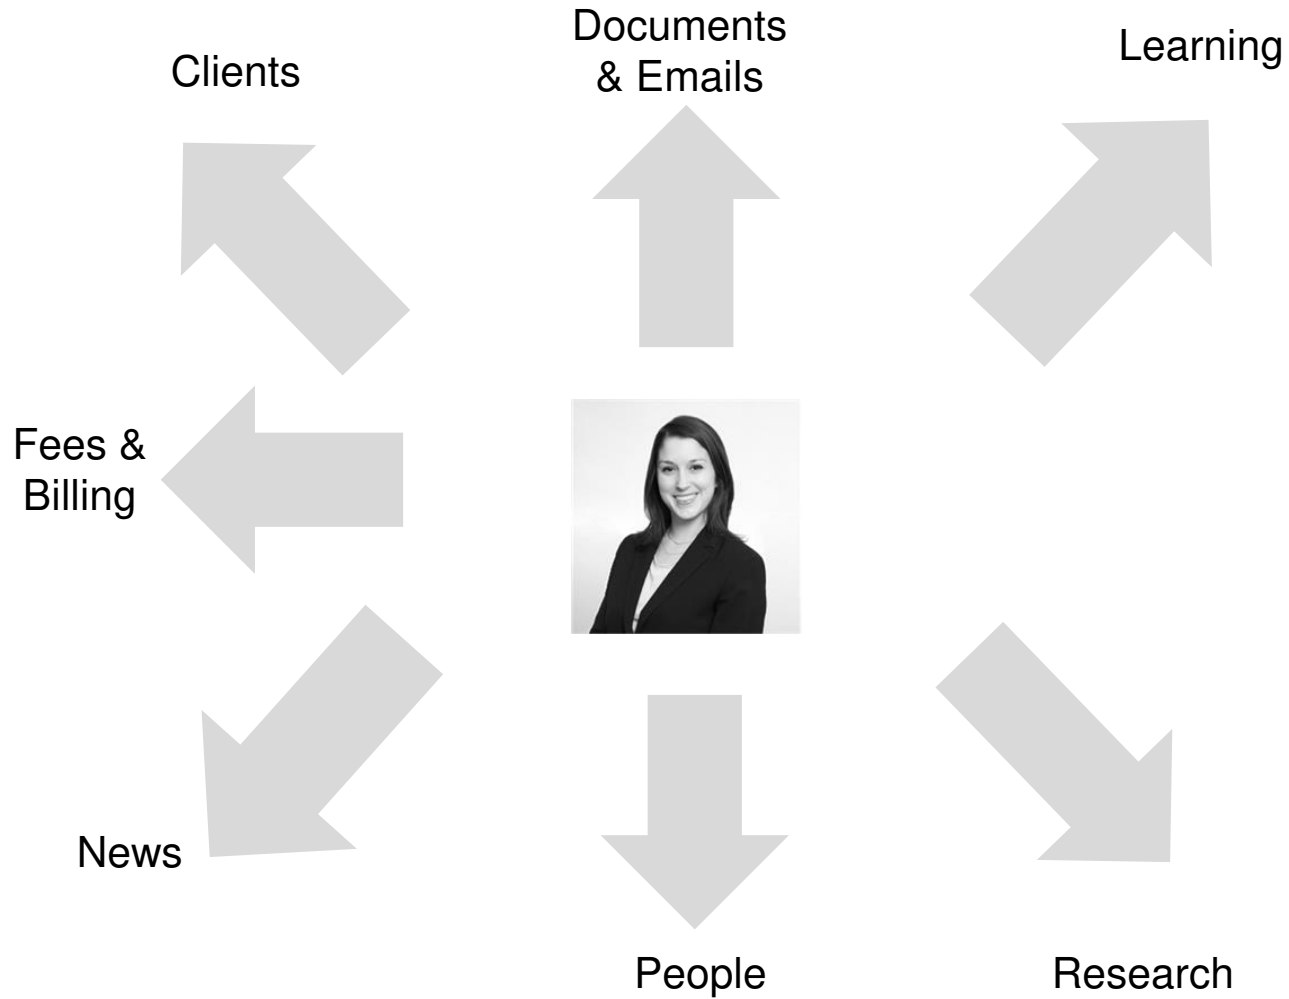

- Providing clients with high quality and timely legal service to meet their business needs.
- Ensuring that each matter is well managed and that the clients expectations are met.
- Providing no surprises to clients and partners on costs and timings.

## Frustrations & Pain Points

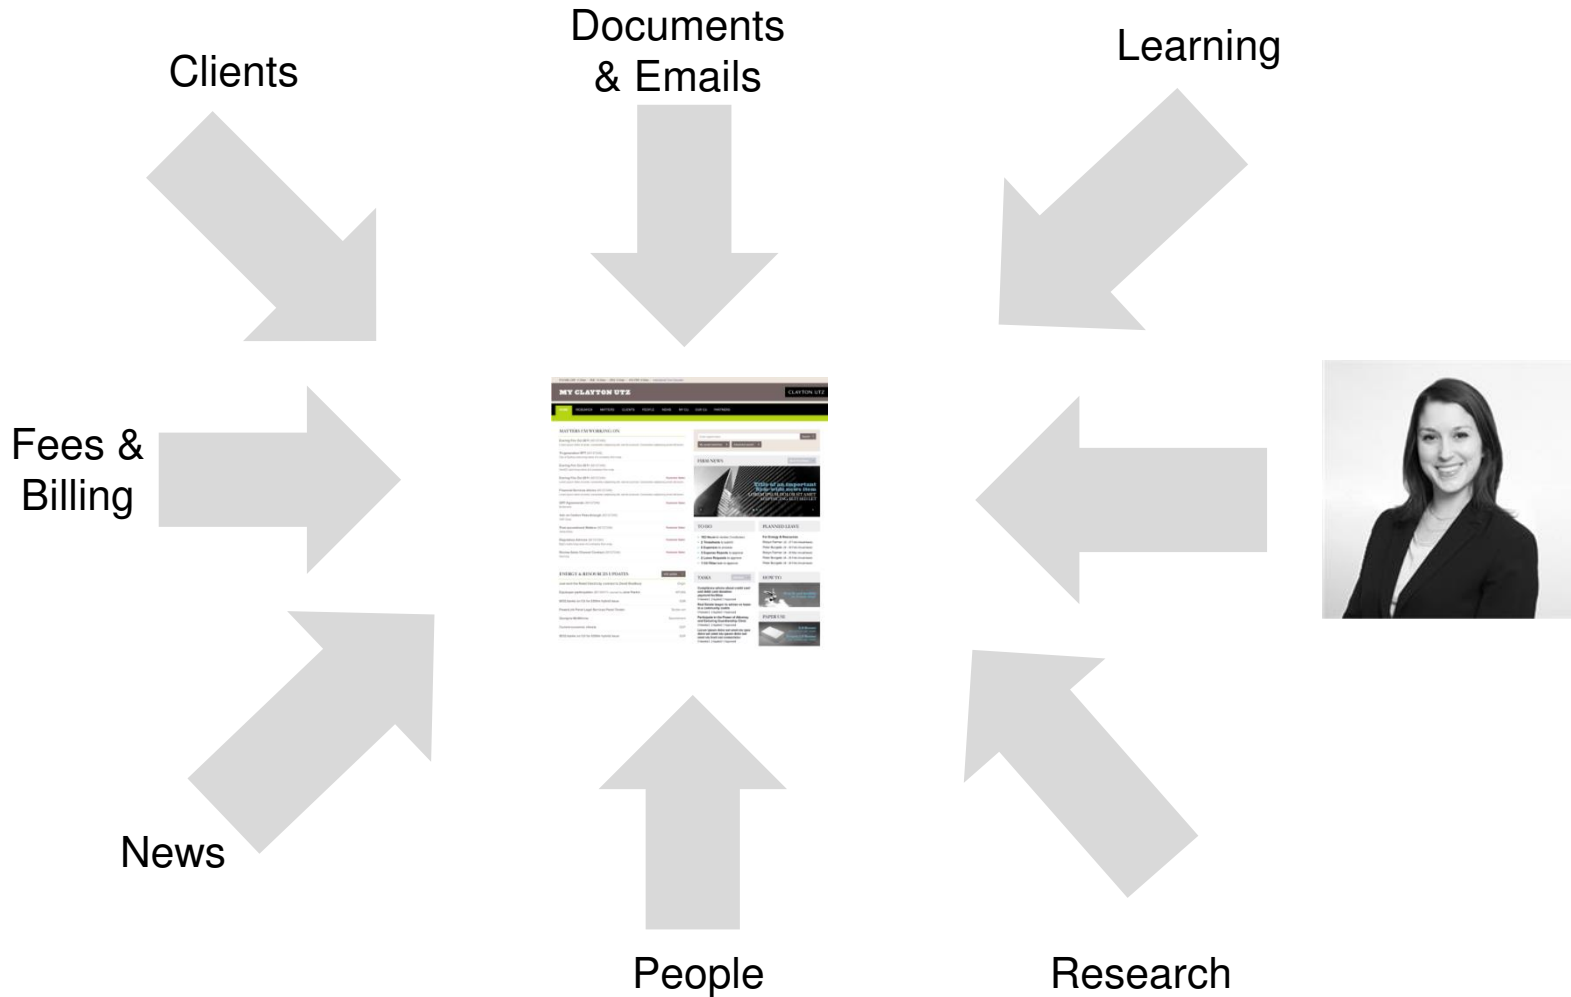

- Lack of tools to help me do my job.
- Remembering where to find links to admin tools, forms and policies.
- Being forced to look at firm news before I can get on with my work.

How to use this Toolkit

About this Toolkit

This Toolkit is designed to give new and expectant parents relevant and practical information about managing work and parenthood.

As a new parent combining work and family responsibilities, there are many things that you will need to consider and decide. Use this Toolkit as a reference guide while you are pregnant at work, on parental leave, and when you decide to return to work.
